评论: The CK 64 is a light and fast catamaran.

Claude Kermoal took profit of his 30 years' experience in ship building and charter operation of large catamarans to design a reliable boat able to sail around the world in remarkable comfort and safety conditions.

The use of Sealum (high performance aluminium alloy) and honeycomb for the furniture preserves the displacement of the boat, in spite of the full technical equipment of this unit designed by Nac o Design office in Paris.
