| Built/Refit | 2014/- |
| Builder | Nautitech shipyard / Mortain & Mavrikios |

Comments: A roof water recovery system: This innovation is a real answer to autonomy when sailing long distances. The saline test after the first rainfall can be carried out either manually or automatically via a dedicated reservoir with a 400 litre capacity. This roof, as well as the possibility of fixing solar panels to it, considerably **increases the autonomy of the boat** during long crossings.
The owner version is can accommodate 6 to 8 people with 3 doubles cabins and 1 convertible fore peak. The "**Exclusive finish**" provides greater comfort and makes your boat more attractive with a teak cockpit, specific upholstery, a beautifully crafted finish and additional equipment.
