Builder	Zucco International Project

Comments: 3 double cabins with 2 bathrooms + 1 crew cabin with shower & toilet.

The Maestro 56, launched in 2011 in collaboration with the Zucco International Project for the interior and exterior design and with Marine Design & Service of Umberto Tagliavini for the hull lines and the technical project, was developed at an early stage on the specific desire to find a synthesis between the features and stylistic elements that have historically characterized the Maestro line.

Maestro 56 confirms some of the choices of design and function already used in previous boats : maximum transparency to ensure a close relationship between exterior and interior, the use of vertical windows as connotative element of naval tradition and the choice of both volumes of hull and of the superstructure, which ensure an high degree of comfort.

OUR PARTNER GIVES YOU THE OPPORTUNITY TO DEVELOP A CREWED CHARTER BUSINESS THROUGH A TAILORED MANAGEMENT PROGRAM.
