The **Lagoon 46** has an unparalleled interior volume for a 46 feet catamaran.
This new model offers 40 m² of living space in the hulls, with major innovation the size of her outstanding forward cabins identical as the aft cabins !

The 46's centred rigging comes directly from VPLP design's research and its more than 30 years' experience at the peak of multihull ocean racing.
Better performance:
- Bringing the mast further aft reduces the length of the boom, increases the mainsail aspect ratio and thus its efficiency.
- The foretriangle incorporates a jib for sailing to windward as well as several downwind sails.
- Centring the masses limits pitching and eases the boat's motion.
Easier:
- The reduced size of the boom facilitates handling.
- The large jib sail is self-tacking, so there is no need to touch anything when taking!
