Atlantic Cruiser 60 (2009)

Chantier Naval Herve

Length 18.6 M (62')

Located: France

Ref. 1406

€ 490 000

approx \$ 606 061

Type	Classic
Propulsion	Power
Hull	Catamaran
Length	18.6m (62')
Beam	7.7m (26')
Draft	1.2m (4')
Hull Material	Composite
Engine	2 / Cummins /
Engine HP	185

PAX	6
Guest Cabin(s)	2
Crew Cabin(s)	1

Built/Refit	2009/-
Builder	Marc Lombard

**Comments: ATLANTIC CRUISER 60'.** This kind of reasonable **Power catamaran** is probably the future of the power boats. The concept by Marc Lombard (famous French designer) and Daniel Curt owner and engineer is visionary and simple.

This cat built by famous HERVÉ Yard in La Rochelle in composite wood époxy is a fantastic solution for long and economic range cruising. Modern child of the SANTORINI 65' (Joubert-Nivelt-Prometa), brother of the ETOILE 65' (tested in 2014 during 200nm with 50-60kt of wind !).

This yacht is probably one of the best powered Cat existing on the world market.

In very good condition and fully equipped for long cruises :

Fuel tanks 2x 4600 liters, Generator, Water-maker, Heating, Full electronic package, Bow thruster, Refrigerator & Freezer, Washing machine, Tender, ...

Very comfortable at sea, with a very low consumption (1 liter/nautical mile at 7,5 knots), she's not a yacht but a perfect machine for expedition and blue water voyages !
