Standard 2x D13 1000hp Volvo Penta diesel engine
Optional Emotion hybrid power and navigation package.

Gorgeous lines, super balanced, intelligent luxury. These are just a few ways to describe our new flagship, the Aquila 70 Luxury Power Catamaran. This breathtaking and powerful catamaran is like nothing you have ever stepped aboard. With an aesthetically pleasing design at every angle, the Aquila 70 looks like the stunning luxury yacht that it is.

The Aquila 70 can top out at 27 knots (with the optional engines) yet still cover long ranges at slower speeds. Power and maneuverability come from Volvo Penta inboards coupled with joystick control. Carbon fiber reinforcements keep weight down while adding to the yacht's strength. The high bridge-deck clearance allows for even more comfort underway and improved speeds.

For your relaxation and entertainment needs, the Aquila 70 has massive spaces designed with European flair that are bright, inviting, and welcoming including a 27' wide master suite. Versatile interior layouts, along with rich wood finishes, soft fabrics, smart appliances, designer furnishings, incredible headroom, and panoramic windows make your experience onboard even better.

Outdoor areas receive just as much attention. Our signature stairs make it easy to access the foredeck from th flybridge, which can be fully open or enclosed with A/C and a wide Portuguese bridge for easy access from aft to bow. If you prefer, spend your time hanging out aft, with its comfortable plush seating, huge beach area, deep swim ladder and excellent dinghy launching.

This 70' **power catamaran** is truly a crowning achievement.
