Comments: Brand new **Fountaine Pajot sailing catamaran 70 feet**
FPY 70S – A Yacht in Motion

- Vision & Identity

The **FPY 70S** is presented as a “residence in motion” — a yacht that blends elegance, performance, and comfo
It is positioned as a transformational yacht: movement not just as travel, but as a way of life.
It succeeds the design philosophies introduced with the Thíra 80, adopting architectural elements that reinforce
connectivity, and spaciousness.

- Key Design & Architectural Features

Dimensions & hull : 22.00m overall length × 10.03m beam ; draft 1.78m
Sail plan : 168 m² mainsail ; 114 m² genoa
Displacement : 40 tonnes (light/unloaded)
Power options : Standard: 2× 150hp ; optional: 2× 195hp
Fountaine Pajot Sailing Catamarans
Solar & autonomy : 7,000W solar array, integrated energy management, generator, 300 L/h watermaker, 1,300
& water capacities
Crew quarters : 34 m² for crew, with a dedicated captain’s cabin with en-suite bathroom
Deck & circulation :
- Flybridge (31 m²) combining helm and lounge
- Front deck (26 m²) with spa and seating (no trampolines)
- Front door linking saloon to foredeck
- Aft cockpit with dual zones (cockpit lounge + outdoor kitchen)
Up to 8 layout configurations are possible, from 3 to 6 guest cabins and up to 5 crew cabins, with variations in
placement of kitchen (main deck or below) and other features.
The Maestro suite at the very bow (25 m²) offers panoramic views.

- Experience & Lifestyle

The FPY 70S encourages seamless connection between interior and exterior: panoramic views, open layouts,
pathways.
It is intended to be tractable by a small crew (e.g. two persons), thanks to ergonomic helm and systems design
The ambition is long-range cruising with luxury and reliability, not compromise: all comfort systems (air conditio
lighting, spa, galley, multimedia) are fully usable.

- The FPY 70S in Context & Evolution

The FPY 70S inherits design lessons from the Thíra 80, applying features such as flybridge, solid foredeck (in l
trampolines), and a front door to enhance onboard circulation.
Rather than a radical break, it is framed as evolution: the brand is refining and optimizing features that worked
its flagship model.

- Strengths & Unique Selling Points

Exceptional balance of performance and comfort
Customization and flexibility in layouts for different use cases
A design language that emphasizes flow, connectivity, and modern luxury
Strong energy autonomy via solar + integrated systems
Crew support with dedicated quarters while preserving privacy
Clear lineage to successful design precedents (Thíra 80) while pushing refinement.
