Comments: Brand new **Fountaine Pajot sailing catamaran 55 feet**
The **FP 55** introduces you to the world of luxury yachting

With its 16.98 m overall length and 8.80 m beam, it combines stability, generous interior volume, and high-end comfort.

It is perfectly suited for family cruising, trips with friends, long-distance sailing, or even charter operations, thanks to its various layout configurations.

● Layout & Accommodation – Flexibility and Comfort

The **FP55** offers several versions depending on your sailing program:

- "Maestro" version: one owner's suite + 4 double guest cabins — plus a crew cabin.
- "Double Maestro" version: two owner's suites + guest cabins — ideal for demanding owners or families.
- "6-cabin charter version": 6 double cabins — perfect for charter or hosting larger groups.

All layouts include private ensuite bathrooms and spacious interior living areas, ensuring comfort and privacy for owners, guests, and crew.

● Life Onboard – Space, Well-Being & Freedom

The **FP55** stands out thanks to its well-designed relaxation areas: aft cockpit, forward cockpit, and the panoramic flybridge — perfect for sailing, sunbathing, or simply enjoying the views.

A direct access door to the forward cockpit creates a smooth and user-friendly deck layout, ideal for life onboard whether underway or at anchor.

Flexible configurations allow the boat to adapt to your needs: comfortable cruising, charter operations, extended stays, and more.

● Innovations & Autonomy – Towards Sustainable Cruising

The **FP55** can be equipped with the ODSea+ hybrid/electric pack, which includes:

two 50 kW electric motors, a 38 kWh battery bank, hydrogeneration, inverter, and more.

Thanks to this system — combined with integrated solar panels offering up to 6,300W — the FP55 delivers renewable energy autonomy and allows you to live aboard without constantly relying on a generator.

This is a significant advantage for those seeking zero emissions, silent navigation, and a more environmentally responsible cruising experience.

● Indicative Pricing

Depending on the version — is priced from:

- FP 55 Maestro: ~ €1,400,000 (ex-VAT)
- FP 55 Double Maestro: ~ €1,395,000 (ex-VAT)
- FP 55 6-cabin version: ~ €1,420,000 (ex-VAT)

Various options and upgrade packs (engines, comfort, sails, layout customizations, etc.) may influence the final price according to your needs.

● Who Is the **FP55** For — and Why?

Those seeking a spacious, comfortable, and intelligently designed catamaran for extended cruising with family and friends.

Buyers interested in charter operations, thanks to the highly modular cabin configurations (including the 6-cabin version).

Sailors who value autonomy, comfort, and energy efficiency, especially with the ODSea+ hybrid pack and solar generation.

Anyone who enjoys sailing in style — with a flybridge, contemporary design, premium finishes, and generous volume.
