Comments: New Fountaine Pajot FP 48 Catamaran

4 versions:

- *Maestro with "children's cabin"*
- *Maestro with dressing room*
- *"Full Maestro," with large bathroom*
- *"Quintet" - 5 cabins (2+3)*

The **FP 48** succeeds the **Tanna 47**, bridging the gap to the larger FP 51 while continuing the rapid renewal of the range, which began with the FP 41 and FP 44. Designed, like the rest of the range, by Berret-Racoupeau Yacht Design.

Yanmar 45hp engines (depending on version),
Electric version available via the ODsea+ system (lithium batteries and electric pods).

Highlights:

- 3-meter sliding door connecting the saloon and cockpit, creating a unified space,
- Raised helm station, separated from the working cockpit, allowing two crew members to work without getting in the way — can be sailed solo thanks to this functional layout,
- Forward cockpit with table and storage locker (windlass, anchor, mooring gear),
- Aft living area with an intimate sun lounger overlooking the water,
- Fitted roof terrace with sun loungers and integrated solar panels,
- Electrically retractable aft swim platform (optional).

A catamaran built for couples and families on extended cruises, compact enough to remain manageable with a crew of two while drawing on over 50 years of shipyard experience and more than 2,100 catamarans already built.

Full information, options list, price on request.
