The **Lagoon 42** is calling attention with her very strong style and design. Her performance are remarkable thanks to a meticulous construction and a special attention given to weight during the design of this model : production of the coachroof by injection for total control of weight, and centring of all heavy items for better weight distribution (rigging centred, chain locker, generator, water tanks).

With its rig moved further aft, high-aspect mainsail, self-tacking jib, the option of having a code 0 and an asymmetric spinnaker, the 42 can adapt to all conditions and all speeds!
